

CLEAR FOCUS Aqueous Inkjet Printer Compatibility

- Satisfactory print results were achieved with the various settings listed below.
- As this is only a partial list of compatible printers, please contact us if you do not see your printer model listed.
- The suggested profiles and settings are based on tests believed to be reliable and are presented for reference purposes only.
- In some cases more than one media profile may provide satisfactory print results.
- The use of a compatible overlamine (e.g., PromoLam or CurvaLam) is highly recommended for outdoor window graphics that will be subjected to moisture to prevent the aqueous inks from running.
- The information does not constitute a representation or warranty relating to the suitability of a product for a particular application or otherwise create guarantees of product performance. Purchasers are advised to conduct their own tests to verify compatibility and to determine the suitability of the product for their specific application and printing method.

Requires CLEAR FOCUS JetVue® or ImageJetVue® topcoated film

Mfg & Model (RIP used, if applic.)	Suggested Profile	Suggested Settings	Notes
Canon iPF 8300	Vinyl Matte		Vinyl Matte may provide brighter colors; testing recommended
Canon iPF 8400	Extra Heavyweight media	Normal	
Encad NovaJet 500, 700, 750, 850	Standard		Allow inks sufficient time to dry
Epson 9900/9700	<i>On printer side:</i> Luster 260 paper	<i>On driver side:</i> Photo Black; Velvet Fine Art paper; Color Density -5; No Color Adjustment
