CLEAR FOCUS Imaging and Plastiprint Settle Patent Infringement Dispute Over One-way Vision Graphics Films

SANTA ROSA, CA – September 25, 2006 – Plastiprint, Inc. and CLEAR FOCUS Imaging announce that they have resolved a patent infringement complaint filed by CLEAR FOCUS Imaging in the United States District Court for the District of Colorado relating to the sale and distribution of one-way vision graphics films.

As a result, CLEAR FOCUS Imaging has granted Plastiprint a limited, non-exclusive, revocable license to sell and/or distribute one-way vision window graphics products in the United States and Canada under six patents owned or controlled by CLEAR FOCUS Imaging: U.S. Patent Nos. 5,525,177, 5,609,938, 5,773,110, 6,258,429 and 7,018,501 and Canadian Patent No. 2,197,092.

CLEAR FOCUS Imaging is a leading manufacturer of perforated, pressure-sensitive vinyl films for the sign and digital-imaging industries. Since its inception in 1994, the company has remained at the forefront in opening up new, premium advertising space through a complete line of window graphics films. CLEAR FOCUS is committed to providing the highest quality products to its customers to help them expand their capabilities, capitalize on emerging markets and increase their client base for greater profitability.

A privately held company based in Santa Rosa, California, CLEAR FOCUS distributes its products in more than 50 countries worldwide and has an office in the United Kingdom. More information is available at www.clearfocus.com.
