FOR IMMEDIATE RELEASE

CLEAR FOCUS Introduces New Product Brochure

SANTA ROSA, CA — April 10, 2007 — Santa Rosa, Calif.-based CLEAR FOCUS Imaging, Inc. has published a full-color brochure featuring its complete line of One Way Vision™ window-graphics products. The new six-page publication helps prospective users select the most suitable material by differentiating the various products based on perforation pattern, hole size, printing method and popular usage. Photos of vehicle wraps, retail window signage, building wraps and other creative applications showcase the unlimited potential of the perforated window films.

CLEAR FOCUS ClassicVue™, SuperVue™ and ImageVue™ films accept solvent inkjet printing, screen printing, thermal transfer, e-stat and airbrushing. Aqueous inkjet-compatible products include JetVue™ and ImageJetVue™. Complementing the One Way Vision window films are ClearLam™ and CurvaLam™, two optically clear, pressure-sensitive overlaminating films for added gloss and image protection.

To request a copy of the new brochure or for more information, please contact CLEAR FOCUS by phone at 707-544-7990, by fax 707-544-1886 or by e-mail at headoffice@clearfocus.com. Website: www.clearfocus.com

Founded in 1994, CLEAR FOCUS Imaging manufactures the widest range of One Way Vision products for see-through window graphics. The company is committed to ongoing product development and innovation to meet the needs of its customers and to help them maximize the potential of the evolving window-graphics market. Headquartered in Northern California, CLEAR FOCUS distributes its patented products globally and has an office in the UK.
