

PRESS RELEASE

FOR IMMEDIATE RELEASE

CLEAR FOCUS Website Gets a Fresh, New Look

SANTA ROSA, CA — June 25, 2007 — CLEAR FOCUS Imaging, Inc. has redesigned and expanded its One Way Vision™ window graphics website — www.clearfocus.com. A more intuitive layout using drop-down menus allows viewers faster, easier access to product and technical information and application ideas. The new website incorporates many of the same design elements used in the company's full-color product brochure, which was released in April and is available on request.

Among the new, convenient features on the website are downloadable product literature, spec sheets and ICC profiles; a customer/tech support section with helpful product-usage data; and a media center with press releases and news coverage. Photos of vehicle and building wraps, retail window signage and other applications in the Gallery showcase the unlimited potential of the perforated window films.

Founded in 1994, CLEAR FOCUS Imaging manufactures the widest range of One Way Vision products for see-through window graphics. The company is committed to ongoing product development and innovation to meet the needs of its customers and to help them maximize the potential of the evolving window-graphics market.

Headquartered in Northern California, CLEAR FOCUS distributes its patented products globally and has offices in the UK and Germany. For more information, visit www.clearfocus.com or contact the company at toll-free 1-800-307-7990 (within the U.S.) or 707-544-7990, fax 707-544-1886 or e-mail headoffice@clearfocus.com.
